DUNMORE to Exhibit Solar Backsheet Films, SunFinder App at Major Canadian Solar Energy Conference

Bristol, Pa., May 14, 2012 – DUNMORE Corporation will exhibit its high-performance solar module backsheets and SunFinder installation app for Android and iPhone at the Solar Ontario Conference and Tradeshow 2012, one of Canada's largest gatherings of solar manufacturers and government policy makers.

[DUNMORE backsheets](#) are used extensively in solar module manufacturing by companies throughout North America and Europe. DUNMORE backsheets provide durable insulation for solar module circuitry. They protect against moisture, short circuits and loss of current that erodes solar module productivity.

DUNMORE's SunFinder app helps solar module installers position modules for maximum productivity. It instantly calculates how much sunlight will shine on a module and estimates how much electricity it will produce in a year. Optimal orientation is one of the major factors in a solar modules' success and helps installers avoid costly re-work and under-warranty repairs.

Who: DUNMORE (*Lee Smith, Michael Sullivan*)

What: CanSIA [Solar Ontario Conference and Tradeshow 2012](#)

When: May 14-15

Where: Booth #409
London Convention Centre
300 York Street
London, Ontario, Canada

About DUNMORE

DUNMORE Corporation is a global supplier of engineered [coated and laminated films](#). DUNMORE offers film conversion services such as coating, metallizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the photovoltaic, graphic arts, packaging, aerospace, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com/>.
