DUNMORE Corporation Announces New Aerospace Division

Recognized supplier of films and foils for multiple technical industries builds upon a near half-century legacy to announce its new brand - DUNMORE Aerospace, dedicated to the development of materials for the highly specialized aircraft and spacecraft industries.

Bristol, PA, March 10, 2016 - DUNMORE Corporation, a leader in the design and manufacture of engineered films for nearly two-dozen industries, announces DUNMORE Aerospace, a new division specializing in serving the aerospace industry. According to Art Mallett, Jr., Director, Global Aerospace, the new division's focus is to "provide solutions to our customers' materials challenges, which will be accomplished with DUNMORE's dedicated R&D staff."

What sets DUNMORE Aerospace

(<http://www.dunmore.com/industries/aerospace.html>)

apart from its competitors is three-fold. First, DUNMORE Aerospace has the advantage of having multiple manufacturing sites in the United States and in Europe that can produce materials around the world. "Our company has multi-facility, duplicate manufacturing capabilities that address contingency planning for all materials supplied to aerospace manufacturers," Mallett said. Second, DUNMORE Aerospace leverages the knowledge and industry relationships from more than 20 markets DUNMORE serves to provide solutions to customers' unique material challenges. Third, DUNMORE Aerospace services customers of all sizes, from educational and institutional up to the world's largest OEM manufacturers.

"When you have more than 45 years of experience producing and manufacturing products for companies that demand zero defects, you develop a reputation for quality," Mallett said. "We have the facilities, experience, and knowledge to address the needs of the world's top aerospace companies."

Mallett also stressed that the legacy and core values of the company will extend into the new DUNMORE Aerospace division, reiterating the company's mission: to satisfy customer requirements worldwide by delivering the highest quality technically engineered coated, and laminated films. "While DUNMORE Aerospace will have a dedicated sales, technical, and customer service team, the corporation's administrative support system will continue to be in place. This provides the client assurances they are getting the quality that other industries receive - and expect - from DUNMORE," Mallett said.

About DUNMORE

DUNMORE Corporation is a global supplier of engineered coated and laminated films and foils. DUNMORE offers film conversion services such as coating, metalizing and laminating along with contract film manufacturing (<http://www.dunmore.com/services/contract-manufacturing.html>). DUNMORE produces coated film, metallized film and laminating film substrates for the aircraft, spacecraft, photovoltaic, graphic arts, packaging, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com>.
