DUNMORE Expands Custom Label Film Services with New Commercial Team Member

Engineered films veteran David Meadors brings precision-coated film experience to DUNMORE's Commercial Team to support customers looking for custom label films and laminates.

Bristol, PA, October 27, 2016 – DUNMORE Corporation, a leading supplier of coated, laminated, and metalized films for more than 45 years, announces the hiring of David Meadors to the position of Business Development Manager. Meadors brings over 28 years experience in performance films to DUNMORE's Commercial Team and will focus on supporting clients in their development of custom label materials.

DUNMORE Corporation has been providing printable films for the graphic and label industry for over 45 years. Emerging digital print technologies, tactile enhancements and increased label functionality are driving the demand for custom label solutions

(<http://www.dunmore.com/custom-label-stock.php>).

DUNMORE's customers are looking for both high technology label materials to serve premium markets and to take advantage of some of the newer digital print technologies such as LED and UV inkjet technologies. In addition to DUNMORE's experience in the label industry, the company provides engineered films and laminates for many of technical industries. These experiences have helped DUNMORE refine its development process and aid in the company's ability to custom design, scale up and deliver novel precision-coated products.

Meadors brings precision-coated film experience to DUNMORE's front end, which aligns perfectly with the company's legacy of delivering custom films and laminates (<http://www.dunmore.com/services/product-development.html>). According to Tom Rimel, DUNMORE Executive Vice President, "The rising demand for custom label solutions and David's expertise in technical material development, make him the perfect fit to align emerging customer needs with DUNMORE technology."

Meadors resides in the southeastern United States. In addition to supporting clients in the development of custom label materials nationally, he will support a broader range of client needs in this region. David's 28 plus years of technical film experience will aid him in delivering novel solutions to complex material science challenges across multiple application areas.

About DUNMORE

DUNMORE Corporation is a global supplier of engineered coated and laminated films and foils. DUNMORE offers film conversion services such as coating, metalizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metalized film and laminating film substrates for the aircraft, spacecraft, photovoltaic, graphic arts, packaging, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com>.
