DUNMORE and Partner Bron Aerotech to Showcase New Generation of Materials for the Aerospace Industry

Leading Providers of High-Performance Tapes and Films Co-Exhibit at the 28th Annual National Space Symposium

Bristol, Pa., April 12, 2012 – DUNMORE Corporation will exhibit the films protecting space projects such as the International Space Station and NASA’s Juno, NPP and GRAIL missions, and discuss new materials being introduced in the aerospace industry at The 28th National Space Symposium held from April 16-19 in Colorado Springs, Colorado.

DUNMORE will be co-exhibiting with partner Bron Aerotech, Inc. (Denver), a leading provider of high-performance tapes, films and fabrics to the aerospace and defense industries. Spokespeople from both companies will be available to discuss detailed technical qualities of DUNMORE’s [ESD \(electrostatic dissipative film\) products](#) and [multi-layer insulation \(MLI\) materials](#), which have been involved in numerous space programs. They will also be addressing next generation materials and how they will provide more flexible, reliable, and long term service; as well as other functions in these coatings that enhance performance over the life of a space vehicle.
