## **DUNMORE Rolls Out New Precision Perforating Services For High-Performance Thin Films**

**Bristol, Pa., Dec. 8, 2011** – DUNMORE Corporation today announced a new portfolio of services for customers who need intricate perforation patterns cut into their thin films and other high-value materials.

DUNMORE's [perforation services](#) save customers the time and expense of sending films to specialized contractors to perforate for applications that require varying surface levels, or the lowest possible weight, or the right permeability to vent heat and air. Perforated films are used in more than 30 industries for applications such as sound attenuation and temperature regulation.

DUNMORE is providing [high-end punch perforation services](#) for the most exacting of those applications – those requiring precise, complex patterns. The company's production facilities can now execute more than 30 standard perforation patterns, plus customized variations. This versatility gives customers the option of choosing from a broad range of patterns best suited to their applications.

“Adding to our perforation services means that we can provide high-performance films plus the finish work our customers need so they can go directly into production without any intervening steps,” said DUNMORE Vice President John Jordon. “With services like perforation we’re cutting steps from our customers’ production processes allowing them to be more competitive.”

### **About DUNMORE**

DUNMORE Corporation is a global supplier of engineered [coated and laminated films](#). DUNMORE offers film conversion services such as coating, metallizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the photovoltaic, graphic arts, packaging, aerospace, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com/>.
