DUNMORE Vice President John Jordon Joins PV America Panel Addressing Solar Module Codes and Standards

Bristol, Pa., March 19, 2012 – The lack of standards bodies to certify [solar module components](#) is a growing issue within the solar industry, and one that will be addressed at this week's PV America event in San Jose, CA. DUNMORE Vice President John Jordon will join industry colleagues to discuss the need for codes and standards throughout the solar supply chain, and how different industry groups are working to harmonize global standards for consistent test processes.

As the market for [solar modules](#) increases and manufacturers look to offer longer warranties, there becomes a greater need for standards bodies to reconcile the differences in testing and quality assurance from one material to the next. With longer warranties comes the risk of losses from premature module failures caused by low-quality materials – backsheets that de-laminate, for example.

“Most manufacturing industries have a basic level of material quality they can count on. There are no such assurances in the solar industry,” said Jordon. “When manufacturers have certified products to turn to, they can save considerable time and expenses, and ensure long-term solar module productivity with confidence.”

Who: John Jordon, Vice President, DUNMORE Corporation

What: [PV America Panel: Understanding Codes and Standards Throughout the Solar Supply Chain](#)

When: Wednesday, March 21, 2012 from 10:30 am - 12:00 pm

Where: San Jose McEnery Convention Center - C3/C4

About DUNMORE

DUNMORE Corporation is a global supplier of engineered [coated and laminated films](#). DUNMORE offers film conversion services such as coating, metallizing and laminating along with contract film manufacturing. DUNMORE produces coated film, metallized film and laminating film substrates for the photovoltaic, graphic arts, packaging, aerospace, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com/>.
