## DUNMORE Adds Quality Systems Manager to Increase Contract Manufacturing Speed to Market

*Julio Enriquez brings years of impressive results and experience in corporate strategic and tactical planning, and full project life cycles. His expertise will further strengthen DUNMORE's speed to market for quality contract coated, laminated and metalized films.*

**Bristol, PA, Dec 18, 2014** - DUNMORE Corporation, a leading supplier of coated, laminated, and metalized films for more than 40 years, announces the hiring of Julio Enriquez, PMP, MBA, to the position of Quality Systems Manager. Julio brings high value to DUNMORE with his experience in the areas of project management, international logistics, and developing standards based on Business Process Management and Lean Six Sigma approaches.

"Julio brings to our company a record of success and an innovative mind to the position of Quality Systems Manager," said DUNMORE Director of Strategy and Systems, Diana Dunbar. "He has an innate understanding of our capabilities as well as what customers seek from an industrial manufacturer. In addition, Julio is versed in most product, production, and process improvement systems in use today, and can broaden our ability to produce quality products faster."

Julio comes to DUNMORE from HiGTek, a leading global manufacturer of solutions for the tracking and securing of high value cargo and assets. For one company, he implemented a Truck Monitoring System improvement for 104 fuel tankers in South Africa that enabled better coordination of international teams and led 99 percent efficiency. He also helped another company save nearly \$500,000 in six months by redesigning and streamlining internal processes.

DUNMORE continues to stress its commitment to quality control (<http://www.dunmore.com/iso-certification.html>) and speed to market. The hiring of Julio follows the promotion of William Ahern to the newly created position of Business Development Specialist in October.

"When you are a leader in the field of film technology, the last thing you want to do is be satisfied with status quo," Dunbar said. "The hiring of Julio shows to current and potential clients that DUNMORE's commitment to providing quality products, prompt delivery of orders, and service after the sale is top priority."

### About DUNMORE

DUNMORE Corporation is a global supplier of engineered coated and laminated films and foils. DUNMORE offers film conversion services such as coating, metalizing and laminating along with contract film manufacturing (<http://www.dunmore.com/services/contract-manufacturing.html>). DUNMORE produces coated film, metallized film and laminating film substrates for the photovoltaic, graphic arts, packaging, aerospace, insulation, surfacing and fashion industries. DUNMORE is privately held, ISO 9001:2008 and OSHA VPP Star certified. For complete information on DUNMORE's products, services and industries served, please visit DUNMORE's website <http://www.dunmore.com/>.
